

Catholic Family Television Network

Our mission is to

Share the Peace of Christ with the world through media.

Fear, confusion, restlessness, impatience... these issues often stem from a lack of inner peace within individuals.

It ripples outward, affecting families, communities, and nations which leads to broken families, violence, and even war.

Our Need

We are living in very difficult times. Our faith is being challenged and our values are being mocked. Our families are being broken down and children are being manipulated and misled. We must stand up together to fight against the evil forces. We invite you to be a part of Shalom World because we have the resources to fight. This is an opportunity to be with the Church and to defend our faith. Through Shalom World television network, we provide enriching content that caters to every family member; guiding, supporting, and accompanying them on their faith journey. Our diverse programming includes documentaries, talk shows, news, interviews, movies, music, Bible study, Catholic events, and more. Each offering is carefully curated to provide a unique television experience that leads families, those seeking, and those on the fringes of faith to a deeper relationship with Christ.

As a 24×7 television network, offered free of charge with no ad revenue, it is challenging to create compelling programs that speak Jesus powerfully to this culture today.

We are actively seeking \$850,000 to address the escalated operational expenses incurred this year due to increased production costs. We need to sustain our current levels of program production. Our organization has successfully produced over 300 impactful programs and generated tens of thousands of hours of content. With this crucial aim of making this valuable content accessible to a wider global audience, we must engage industry experts to enhance our messaging and increase our reach substantially. We have a strong conviction that these strategic actions will result in a 40% increase in our digital reach and a 25% boost in donations, ultimately effectively offsetting the heightened operating expenses.

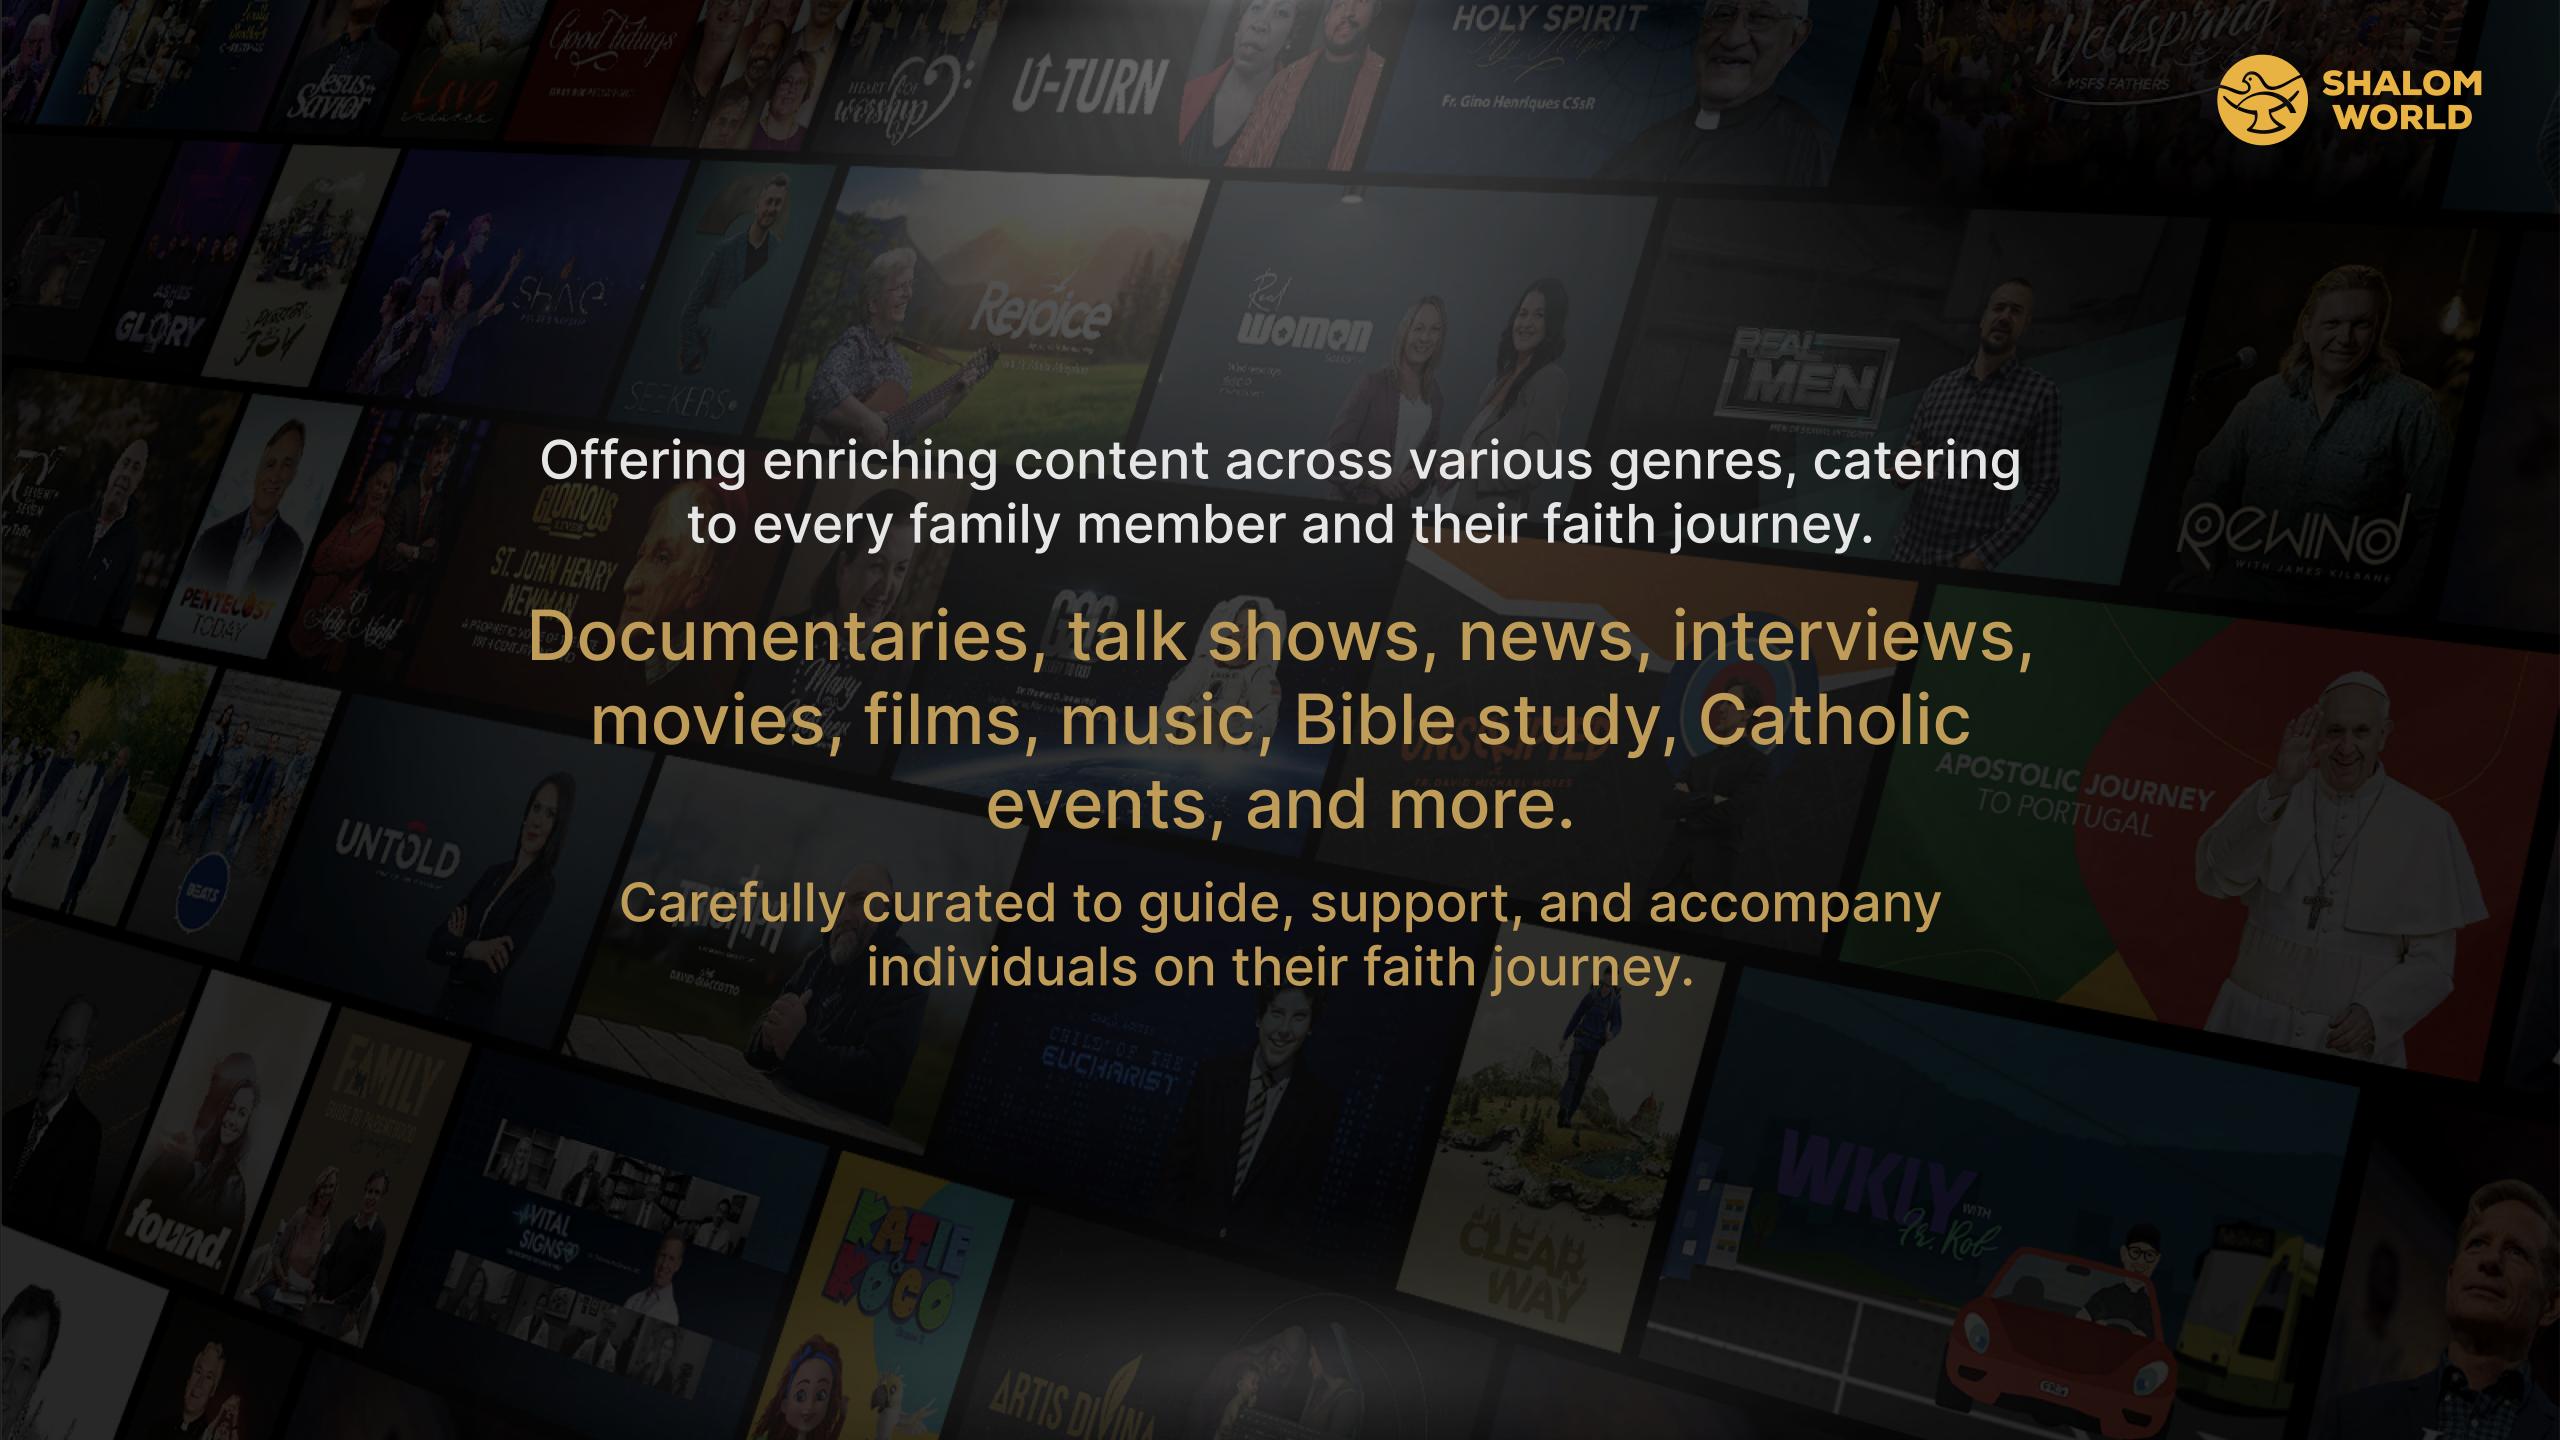

Shalom Media USA was established in 2010 with a vision to reach a global audience.

Launched Shalom World Television in 2014, a 24/7, commercial-free, English-language channel for the whole family.

to support the evangelical efforts of the Catholic Church.

In today's world, children are heavily influenced by the media. During this critical phase, when their their purpose, identity, and conscience are being formed, secular media influences them negatively. It's crucial for children to learn about their faith, grow in virtue, and develop a deep relationship with Jesus. To achieve this, Shalom World introduced SW Pals, a dedicated segment for ages 5-13. Apart from creating our own content, we license content from christian animation studios and filmmakers, providing families with a tool that fosters faith.

Prefect of the Congregation for the Evangelization of Peoples.

"I am so pleased to endorse and offer my blessings to Shalom World TV for all that you are doing to bring good news to this world, which is in need of a message of hope."

Archbishop Eamon Martin

Primate of All Ireland

"Shalom World TV now communicates the Good News of the Gospel throughout the world. This new programming will be reaching out to youth, young adults, and families."

Archbishop Gustavo Garcia-Siller

Archdiocese of San Antonio

In conclusion, we need to

- Maintain the current levels of program production.
- To meet the increased operational expenses due to increased cost this year.
- Make the programs available to more viewers globally.

We firmly believe that these strategic actions will yield a 40% increase in our digital reach and a 25% boost in donations, effectively offsetting the heightened operational expenses.

We are counting on your generosity to raise \$850,000 to continue our mission. We have been in the service of the church for over a decade. We firmly believe that our mission is very vital in holding the families together and shaping the future of next generations.
